WORK EXPERIENCE

September 2015 - present — Android Developer

Vleepo Software (141 Benizelou Str, Larissa, Greece (www.vleepo.com))

Working in the development team for the android version of the vleepo software. Vleepo is a brand new way to engage through chat with other people. Currently in close beta version.

July 2012 – September 2015 — Software Developer

ITBox, 9-11C Manolaki Str, Larissa, Greece (http://itbox.gr)

Development of websites mostly in WordPress and Joomla but also custom projects, depending on the client needs. Development of android apps as well as provisioning and publishing them on Google Play.

Android Applications:

▪ **naftikachronika.gr** – App for the Maritime Chronicles online newspaper on shipping, transportation and international trade.
https://play.google.com/store/apps/details?id=com_itbox_projects.naftika_chronika

▪ **Elections 2014/Thessaly Region** – App related to the regional elections 2014 for the region of Thessaly. Results tracking system, inform voters about their electoral district, see polling data as provided by the Ministry of Interior.
https://play.google.com/store/apps/details?id=com.itbox.android.ekloges

▪ **Larissanet.gr** – App for the local newspaper Larissanet about the city of Larisa.
https://play.google.com/store/apps/details?id=com.itbox.android.larissanet&hl=el

iOS projects on Github:

- Orthodox Easter Date Calculation https://github.com/gtsaousidis/Easter-Calculator-iOS
Simple Blog Reader https://github.com/gtsaousidis/blogReaderAppiOS

Accounting Assistant
October 2009 – April 2010   Staff Jeans & Co, Industrial Area Larissa, Greece(http://staff-jeans.com/)

October 2011 - Present

Independent Works
▪ **Tanger Inter** – Implementation of boilerplate code written for Nindo Sarl | Tanger – Maroc, Morocco. This code is used to make a generic WordPress-to-Android-app easier with the ability to receive Push Notifications through the Parse cloud service and RTL support.
https://play.google.com/store/apps/details?id=com.nindo.tangerinter
Feedback in this current work you can see here.

Designed the following windows phone applications.

▪ **Eortes** – A calendar showing Orthodox holidays and namedays (implements in-app purchases).
http://www.windowsphone.com/s?appid=70be703f-af02-4313-aff0-376a909483d4

▪ **Farmakeia LIVE** – An app that displays pharmacies on duty. It syncs remotely with xml files and shows the locations of the pharmacies on a map.
http://www.windowsphone.com/s?appid=cc8ddea0-22dc-4cda-9370-b2c4196efb73

▪ **My Memory** – A "copy" of your memory. Features of this app include setting up reminders and using cryptography to securely store passwords on the device.
http://www.windowsphone.com/s?appid=e878f01b-3207-4a83-86e3-955ee1f1e78e
